VEHICLE WHEEL BEARING
AND VEHICLE WHEEL STUD

ABSTRACT OF THE DISCLOSURE

A vehicle wheel stud and a vehicle wheel bearing including a wheel stud. The vehicle wheel stud includes a vehicle-wheel-stud body. A first portion of the body has wheel-bearing-engaging first external threads, and a second portion of the body has wheel-nut-engaging second external threads.

5 The wheel bearing includes a rotatable section and a wheel stud. The rotatable section includes a hole having internal threads. A first portion of the wheel stud has first external threads threadably attached to the internal threads of the hole. A second portion of the wheel stud has wheel-nut-engaging second external threads.
